

National Fraud Initiative

Dungannon and South Tyrone Borough Council is required by law to protect the public funds it administers. It may share information provided to it with other bodies responsible for auditing or administering public funds, in order to prevent and detect fraud.

The Comptroller and Auditor General (C&AG) audits the accounts of the Council. It is also responsible for carrying out data matching exercises under his powers in Articles 4 To 4G of the Audit and Accountability (Northern Ireland) Order 2003.

Data matching involves comparing computer records held by one body against other computer records held by the same or another body to see how far they match. This is usually personal information. Computerised data matching allows potentially fraudulent claims and payments to be identified. Where a match is found it indicates that there is an inconsistency which requires further investigation. No assumption can be made as to whether there is fraud, error or other explanation until an investigation is carried out.

The C&AG currently require the Council to participate in a data matching exercise to assist in the prevention and detection of fraud. We are required to provide particular sets of data to the C&AG for matching – full details are set out in the Northern Ireland Audit Office's website, www.niauditoffice.gov.uk

The use of data by the C&AG in a data matching exercise is carried out with statutory authority. It does not require the consent of the individuals concerned under the Data Protection Act 1998. Data matching by the C&AG is subject to a Code of Practice. This may be found at www.niauditoffice.gov.uk

For further information on the Comptroller and Auditor General's legal powers and the reasons why it matches particular information, see www.niauditoffice.gov.uk/pubs/NationalFraudInitiative/Layered_Fair_processing_Noticelevel3.pdf
